Industrial Performance Friction Feeder Family

Washdown Feeder

High Performance - Reliable - Cost Effective

1. 3 Piece Shaft allowing for easy belt changeover
   - Type 300 series passivated stainless steel shafts and sealed bearings to provide maximum life expectancy and 24-hour a day operation.

2. Brushless Servo Motor for precise placement
   - The ip3 series is powered by a 800 watt brushless servo motor. Depending on your application needs, an optional upgrade to 1000 watts is available.

3. Self-contained computer controls with on-board panel
   - Controls housed in a 300 series stainless steel enclosure for washdown applications. Designed for easy interface with existing computer, PLC or other host machinery.

Washdown Feeder 350 ip3

Features

- Engineered with type 300 series stainless steel and passivated for corrosion assistance; custom build to your specifications*. Feeds a wide range of products accurately.

- Cleanroom grade feeder for pharmaceutical applications. All contact surfaces are certified materials, FDA compliant feed belts and stripper wheels are available for food processing secondary applications*.

- Highly adaptable Multifeeder software package ensures flexible and precise control.

- Easy and versatile to interface using standard industry compliant cables.

- Compact standalone mobile system with reduced footprint.

Industries:
- Pharmaceutical
- Cosmetics
- Financial
- Robotics
- Food Secondary Applications
- Packaging
- Printing

Common equipment that the feeder can be integrated into:
- Imaging lines
- Conveyers
- Poly-baggers
- Order fulfillment
- Shrinkwrappers
- Folder/Gluer
- Case-packers
- Collators
- Existing bases
- Flow Wrappers
- Cartoners
- Banders

Applications

- Insertion into a catch-tray, box or conveyor.
- Deliver a product to a secondary application.
- Batching, high speed tipping or affixing, collating systems and barcode/vision systems.

* Upon request/specification

† Minimum Product Length may require narrow belt configuration.
‡ Maximum Product Length is dependent on product, equipment configuration and application.

*All Multifeeder Technology® equipment can be designed to meet your specific production requirements. Please contact one of our experienced Application Engineers to discuss many solution options available to you.

### Product examples to deliver through feeder:

- Bags
- Pouches
- Pamphlets
- Card Stock Products
- Gift Cards
- Clear-Film Plastics- Coupons
- Magnets
- Bandages
- Carton Blanks
- Tyvek® Sheets
- Pharma Inserts
- Wax Slip Sheets
- Cardboard

Multifeeder Technology provides high performance friction feeding and labeling solutions throughout the world.

With state-of-the-art control technology and robust mechanics, our products feed more quickly and accurately to provide customers with a greater value of return. All feeders, labelers and accessories can easily be integrated with other machines to provide a total system solution for any application.
